☐ URGENT ☒ FOR REVIEW ☐ PLEASE COMMENT ☐ PLEASE REPLY ☐ PLEASE RECYCLE

NOTES/COMMENTS:

Dear Examiner Nahar:

Please find attached an Applicant Initiated Interview Request Form that you requested on the phone today. I would like to schedule a telephone interview at your earliest convenience. My question relates to the relevance of Kathail (U.S. 5,802,365), which appears to be concerned with matching a driver to a hardware device. As claimed in exemplary Claim 1, the present invention is directed to determining if two pieces of firmware in a computer are compatible. This is done by analyzing a control block that "includes a firmware family code and a compatibility table of firmware images associated with said control block." If the two firmware images are from different families, then the compatibility tables are evaluated "to determine if said firmware images are compatible."

None of this appears to be taught or suggested by Kathail, which installs a latest driver for a device (with an implied assumption that the new version will work okay).

I look forward to your call set up a time to review these matters.

Thank you for your attention.

Best regards,

Jim Boice
